

Name _____

The Poles

Bring one end of your first mystery magnet close to the north pole of your hanging magnet. What does the mystery magnet do? Record your answer in the chart. Repeat with magnets two and three.

Mystery Magnet	Attract/Repel	Pole (N or S)
1		
2		
3		

Use your marker to label the ends of your mystery magnets. Label the north pole with N and the south pole with S.

How did you use your knowledge of magnets to help you fill in the chart and label your magnets?
